

Powder X-Ray Diffraction

Basic and Qualitative analysis

Sept. 13 (Tue), 2016, 14:00 ~ 16:30 (Doors open at 13:45 ~)
315 room, South bldg. 7, Ookayama Campus

Lecturers : Dr. Hideo TORAYA, Senior Adviser, Rigaku Corporation
Yuji SHIRAMATA, Application Laboratory, Rigaku Corporation

Language : English

Capacity : 15 participants

Program :

- "Introduction to X-ray Analysis using the Powder Diffraction Method." Lecturer : Dr. Hideo TORAYA
- "Techniques of qualitative analysis using "PDXL", integrated powder X-ray analysis software, measured by "MiniFlex600", powder X-ray diffraction instrument." Lecturer : Yuji SHIRAMATA
- Demonstration of MiniFlex600

Registration : Please send your **Name, Affiliated department, Laboratory name, and Title** to "xray@cama.titech.ac.jp".

And please indicate [Application for XRD seminar] in the subject line. (deadline ; Sept. 9, 2016)

Organization : Materials Analysis Ookayama Division,
Technical Department
Co-organization : Rigaku Corporation
